REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance. The claimed structure is an electrode on a p-type layer of a nitride semiconductor which is a trilayer with specific metals. Nakamura et al. (5,563,422) show the use of a multilayer p-electrode but does not show the claimed metal sequence. Hashimoto et al. show the use of copper as a base layer but show it on the i-layer of a LED. Thus the claimed electrode structure is not shown in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
